

The Daily 5 Math*
(an extension of [The Daily 5](#) - Boushey & Moser, 2006)

A Framework for Inclusive Teaching/Learning of Mathematics

- **Balanced Mathematics:** The core mathematics curriculum
- **Inclusive Learning Resources:** Resources that extend/tailor this curriculum to support mathematics development in inclusive (diverse) classes
- **The Daily Five:** An organizational framework that orchestrates the math block—making balanced mathematics feasible in diverse classes*

The Daily 5 framework provides teachers with the flexibility to work effectively with small groups and individuals with similar needs/interests, while peers cycle through high-quality independent mathematics activities.

* The Daily 5 = The Advanced 5 in high school
