

Hello!

Welcome to your Active Learning Workshop.

Please read the following text and try to come up with an example how you would/could use this activity.

Numbered Heads Together

Here participants work in groups (large or small). To begin, a group member asks a question, then others in the group put heads together and make sure everyone knows the answer. To close, the question asker picks one from the group to answer the question. This can also be done with two or even several teams, where Team One asks Team Two a question. Team Two puts heads together and makes sure team members know the answer. Then Team One selects a Team Two person to answer the question.
