

HOMework

Concrete examples

Finish work started in class

Prepare a quiz or a question for other students

Answer selected questions from a list of choices

Reflect on talking points for a class discussion

Explore a topic of interest (older students only)

Interview family members and create a genealogical tree

Brainstorm ideas for a class project

Create mind maps to summarize class work

Illustrate a concept explored in class

Explain to parents written work done in class

Interview a family member

Summarize class work and present it to parents using guiding questions (ex: write 3 things you learned about...)

Choose vocabulary words from a text to create a personal dictionary

Find three new words to be presented the next day

Cook or perform an experiment in the kitchen and report on it

Create word or math problems for peers

Include math and computer games

Use math drills and practice

Practice representing numbers with concrete objects

Solve situational problems (not too many)

Create questions from a text

Illustrate and describe the main character of a story

Paraphrase a text

Prepare an oral presentation using an object from home such as a picture

Read a book based on ability and interest

Reading circle: prepare a presentation according to the role assigned

Act out a favourite character in a story

Give an opinion about a story

Watch TV - prepare an oral or written summary

Reread a text read in class in preparation for the next day's activity

Free write (choice)

Write a different ending for a story

Write in a journal

Write about a topic of personal interest
